

PSE&G Business Energy Saver Program Trade Ally Application Energy Management Trade Ally Requirements

Thank you for your interest in becoming an approved Trade Ally for PSE&G Business Energy Saver Program. If you are completing this application with intent to submit projects for the Energy Management program (Retro-commissioning and/or SEM), please note that additional requirements will apply. Upon submission of your Trade Ally online application, program staff will contact you to confirm and/or collect the information below:

- 1) Company has local presence in PSE&G Service Territory
- 2) Documented experience in performing retro-commissioning and/or SEM services, e.g. at least one (1) example of a Retro-Commissioning and/or Strategic Energy Management report (as applicable to your application) completed in the past three (3) years.
- 3) Staff with relevant certifications, such as:
 - a. Certified Commissioning Professional (CCP) – The Building Commissioning Association (BCA)
 - b. Certified Commissioning Provider – Certified Air Balancing Council Commissioning Group (ACG)
 - c. Accredited Commissioning Process Provider – University Wisconsin Madison
 - d. Systems Commissioning Administrator – National Environmental Balancing Bureau (NEBB)
 - e. Certified Building Commissioning Professional (CPCP) – Association of Energy Engineers

Eligible Trade Allies must agree to all Terms and Conditions of the Trade Ally application. In addition, approved Trade Allies submitting projects to Energy Management must agree to provide the Program with hourly price estimates for services in order to determine a project's incentive.
